-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-8 and 10-16 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-16 of prior U.S. Patent No. 6,616,880, and claims 1-17 of U.S. Patent No. 6,287,503. Note that the instant application and USP's 6,616,880 and 6,287,503 are not patentably distinct from each other because all set forth the method for encasing package arrays wherein a first and second substrate are provided within upper and lower mating mold plates, the substrates and mold plates are mated and plastic resin is injection molded to encase the assembly. This is a double patenting rejection.

It is unclear to the Examiner what protection applicant is seeking for what applicant regards as his invention. It is noted that multiple identical applications are repeatedly filed to the same invention.

Applicant is reminded that the Office [is making a] double patenting rejection because the patentee is entitled only to a single patent for an invention. As expressed in *Studiengesellschaft Kohle*, 784 F.2d at 361, 228 USPQ at 844, (J. Newman, concurring),

" 35 U.S.C. 121 of course does not provide that multiple patents may be granted on the identical invention." See MPEP 804.01, last paragraph.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. USP 6,117,382.
